

Technical Catalog for Professionals

SILVER EDITION

SUGGESTED RETAIL PRICE LIST

Effective July 1, 2019

SPECIAL NOTE:

Eight (8) Foot rods (unless otherwise instructed) will be cut to 94". *Because packages over 96" long are notably more expensive to ship.

* UPS & FedEx cost them as 90lb, plus other surcharges!

Rods over 106" have to be shipped by truck

Terms of Sale

Please consult with the retailer for their specific terms of sale.

Manufacturer/Distributor Conditions & Policies

1. Freight will be added. 2. Merchandise received in damaged condition must be accepted and held for inspection by carrier. Damage claims must be made within 10 days. **3.** Returns will not be accepted without authorization. Buyer pays for outgoing freight, return freight, and a 20% restocking charge (the product must be in undamaged condition to receive credit). Credit will not be issued for products which have been installed. Enclose a note with the reason for return and the invoice number. Returns must be made within 30 days of purchase. **4.** Air shipments are subject to the carrier's rules, so are not guaranteed in case of weather delays, etc. **5.** Shipping errors, shortages, etc. should be reported within 3 days of delivery. After 3 days, the distributor's responsibility will be limited to replacing defective items or shortages by Ground Shipments only. Buyer will be responsible for paying for any Air Shipping requirements when errors, defects, or shortages are reported after 3 days of the original delivery. Defects, errors, or shortages *must* be reported within 30 days.

CHECK ALL PURCHASES UPON THEIR RECEIPT

6. Under no circumstances, or for any reason, will the manufacturer or distributor assume responsibility for payments to or for installers. **7.** Please allow 2-4 weeks for delivery. **8. BACK-ORDERS & SPECIAL ORDERS:** Please allow an *extra* 3-4 weeks for delivery of Back-Orders and Special Orders. **9.** Prices, errors, and omissions are subject to change/correction without notice.

Colors for Kontur Evo Endcaps, Overture & Flex corners: A = Antique • BN = Burnt Nickel • CR = Chrome • G = Graphite • S = Stainless • SH = Sahara • VB = Vintage Brass

Colors for other items in these collections & on this page: DW = Distressed Wood (Black) • OB = Oil-Rubbed Bronze • TA = Taupe

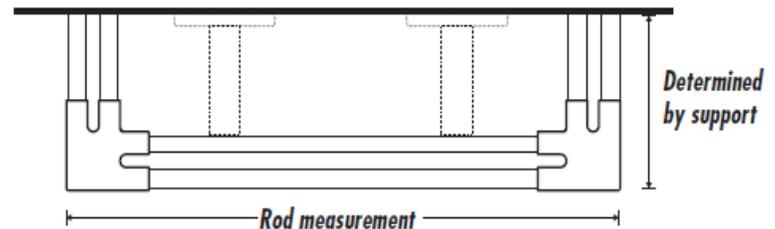

Ordering Bay or Corner Rods

1. Order wall rod
2. Order 1 side rod for Corner system or 2 side rods for Bay system

When ordering Kontur EVO rods, widths are calculated with finials.

When ordering Kontur Returns, widths are calculated with returns.

ONE STEP... DUAL INSTALLATION!
This innovative design allows you to integrate your rod mounted drapery treatment with a vertical, venetian or pleated shade, without additional hardware.

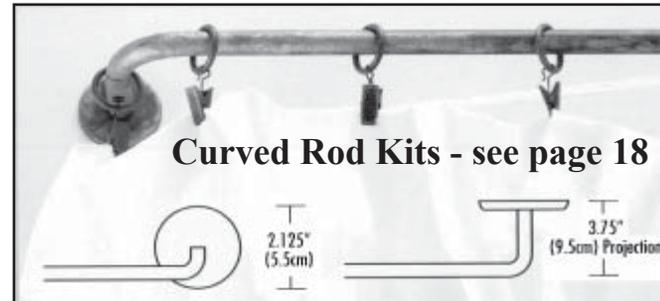

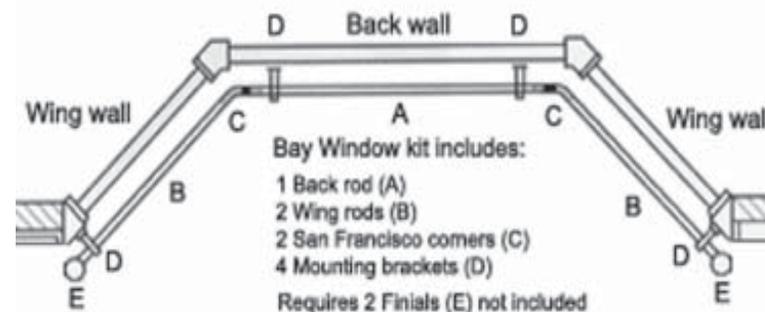

FINALLY... AN ADJUSTABLE SOLUTION!
Convert a single Art Decor® drapery rod into a flexible double rod system.

The Versatile "SWING ARM" Finally... A simple solution!

- Swings out for your choice of partial or full sunlight and airflow
- Fully closed will block-out daylight and provide complete privacy
- Adjustable length
- 180° swing rotation
- Allows for unrestricted window openings.

On the right is a diagram showing the components used in a San Francisco Bay Window Treatment.
See page 18.

INFINETTE INSTALLATIONS - MEASUREMENT SPECIFICATIONS

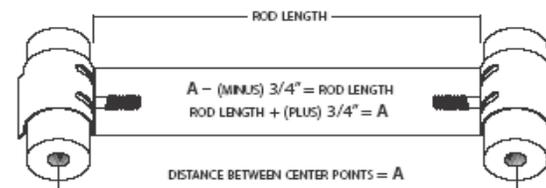

ROD HEIGHT -

- For 5/8" Tube:**
From floor or any base point to bottom edge of tube, add 5/16" to determine center point of installation.
- For 3/4" Tube:**
From floor or any base point to bottom edge of tube, add 3/8" to determine center point of installation.

ROD LENGTH -

- When position of center points is determined first.
Deduct 3/4" from distance between center points to determine rod length.
This method is used when bracket positions are predetermined due to installation requirements.
- When rod length is determined first.
Add 3/4" to length of rod to determine distance between center points.
This method is used when determining rod length to suit your drapery treatment or area to cover.

ALTERNATE ROD HEIGHT -

- Add 1/2" to height of alternate rod including head rail to find center points for installation.

Bracket projection:

2.25 fullness will work on all 4" supports. 2.5 fullness may need 6" supports depending on track.

Heavy Drapes:

You can order Tekno wheeled carriers but the stack back will increase by 75%.

Return Calculation:

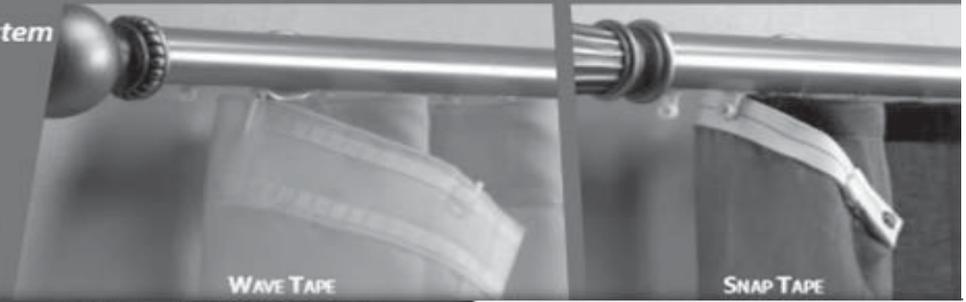

Returns are based on half of each wave. In some instances the return will be too large so either make a deduction based on the following formula or hide the extra packets in the back waves.

Reduction of Return = Number of pockets * .43" (7/16") for each side.

WAVE DRAPE • TEKNO WAVE, STANDARD WAVE & TEKNO SNAP

Wave Drape carriers use a unique hook system as opposed to the traditional snaps.

- Wave Hooks allow for more flexibility and ease of use.
- Multiple fullness: 1.8 to 2.7 fullness.
- Easy Installation, no force required to place hooks.
- Change hook placements quickly after drape is installed.
- Drapes can be washed even with hooks are installed.

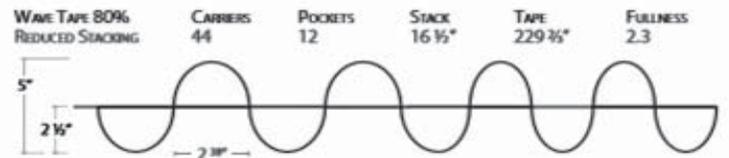

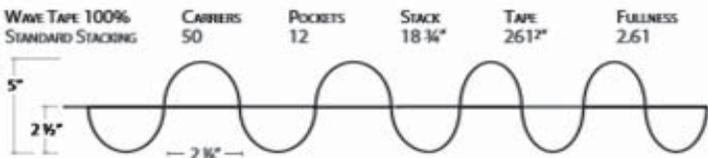

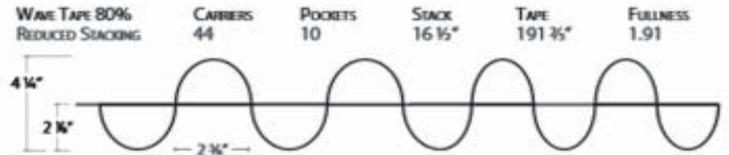

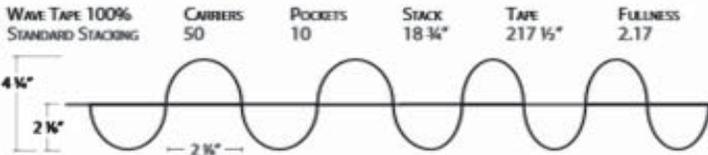

WAVE TAPE

SNAP TAPE

WAVE ADVANTAGE

i Easily compare using our online wave calculator for any rod length. Below we give an example using a 100" rod length comparing 10 versus 12 pocket and 100% versus 80% stacking.
